

Update Your Map Database

The following dialogs will guide you through the process of updating your map database so that the latest BaseMaps will be available in your software. This process is the same for Smartlink and Tuner Software.

First, be sure your software is up to date by following the steps in this LINK.

Next, perform a Map Database Update to be sure you have the latest BaseMaps.

1. Select type of map from drop down. Follow these steps for each of the 3 map types.

Update Your Map Database

2. Select any map (this is just to pull up the map update screen)

| | Extended Details | Exhaust 🔨 | Throttle | Family | EngineType | Manufacturer | Ite |
