

Selecting New Base Map from Software Data Base

v.02112013

Choosing the Correct Base Map

1. Go to “EFI Maps” in the Main Tool Bar, then click “EFI Map Listings”.

This screen appears slightly different in the TMax Tuner Software

A list of available Base Maps should appear.

These maps have been engineered and designed using popular component combinations.

Note: Due to the number of components available, some combinations may not be listed. The ThunderMax is designed to utilize the map that most closely matches your combination and automatically make adjustments as necessary.

- Under **'Engine Type'**, use your mouse and **'Right-Click'** the engine size that most closely matches your engine.
